Executive Summary

In an era where data is the world's most valuable asset, ensuring the security and operational resilience of your data center is mission-critical. The rising threats of cyber and physical attacks, regulatory pressures, and the need for zero downtime demand an experienced security partner who understands your industry's challenges inside and out.

Pavion is a top-tier provider of fire, security, and communications integration, with an unparalleled track record of securing data centers for companies. Our AI-powered security, proactive monitoring, and seamless integration strategies minimize risks, ensure compliance, and maximize uptime—helping you optimize efficiency while controlling costs. With **50+ years of industry experience, a global footprint, and dedicated data center specialists**, we are the security partner you can trust to safeguard your infrastructure now and into the future.

Company Overview

A Legacy of Excellence in Data Center Security

For over 50 years, Pavion has been at the forefront of fire, security, and integration solutions, helping data centers mitigate threats and ensure business continuity. Our expertise spans:

AI-Driven Video Surveillance

- Advanced analytics detect, deter, and respond to potential threats in real time

Advanced Access Control

- Multi-layer authentication, biometric security, and compliance-driven access management

Fire & Life Safety Systems

- NFPA, UL, and ISO-compliant solutions that ensure uninterrupted operations

Perimeter Security & Intrusion Detection

- Robust fencing, turnstiles, vehicle barriers, and AI-enhanced monitoring

Integration with IT & Cybersecurity

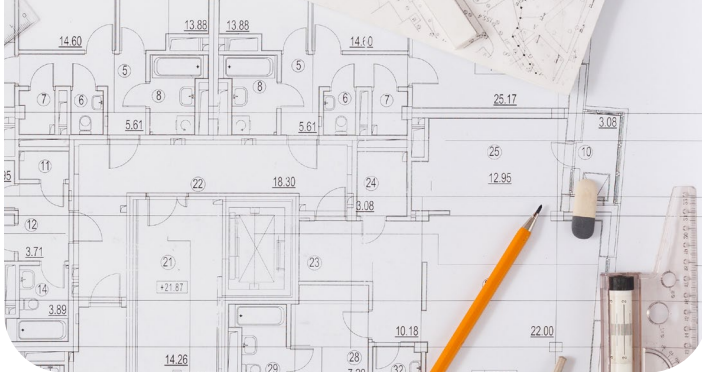

- Unified security solutions that bridge physical and digital threat management

Our Reach & Capabilities

- ◇ **23 Countries, 70+ U.S. locations**
- ◇ **1,350+ field technical experts specializing in data center security**
- ◇ **Trusted by Fortune 500 enterprises & hyperscale data centers**
- ◇ **Industry-leading certifications in compliance, security, and integration**

With a deep understanding of mission-critical infrastructure, Pavion ensures that your security systems work seamlessly with your operations, minimizing risk and maximizing efficiency.

Project Approach & Expertise

Seamless Security Integration from Design to Deployment

A robust security strategy starts at the design phase and must align with your operational, regulatory, and scalability goals. Pavion collaborates with you across the entire lifecycle:

1. Pre-Design & Engineering:

- Risk and compliance assessments tailored for ISO 27001, SOC 2, HIPAA, and UL 2050
- AI-enhanced security planning to optimize incident response and access control
- Scalable solutions customized for hyperscale, enterprise, and colocation data centers

2. System Installation & Integration:

- Dedicated data center project managers to ensure on-time, on-budget deployment
- Coordination with General Contractors, IT Teams, and Facility Managers to streamline security implementation
- BIM and VDC integration for security systems that work within your architectural and IT framework

3. Ongoing Monitoring & Maintenance:

- 24/7 centralized monitoring with AI-enhanced threat detection
- Preventative maintenance for long-term security system reliability
- Subscription-based Security-as-a-Service (SaaS) options for cost-efficient scalability

Our strategic approach reduces costly change orders, eliminates delays, and enhances compliance, making security an enabler—not an obstacle—for your business growth.

Industry & System Experience

Pavion is the trusted security provider for Fortune 500 enterprises, cloud service providers, and colocation facilities, including:

Government & High-Security Environments: **UL 2050-certified SCIF environments**

Our data center-specific subject matter experts (SMEs) ensure our security strategies align with the unique challenges of hyperscale, enterprise, and colocation data centers—delivering world-class protection and operational continuity.

Certifications, Awards & Recognitions

Pavion upholds the highest security industry standards, ensuring best-in-class compliance:

UL 2050 Certification

– Meeting SCIF and high-security data center requirements

ISO 27001 & SOC 2

– Ensuring compliance with global information security frameworks

NFPA & UL Fire Safety Compliance

– Protecting assets while meeting regulatory standards

Honeywell ProWatch & Genetec Synergis

– Industry-leading security system certifications

With a proven track record of delivering scalable, compliant security solutions, Pavion is a preferred partner for data center leaders worldwide.

Certifications, Awards & Recognitions

Pavion upholds the highest security industry standards, ensuring best-in-class compliance:

UL 2050 Certification

- Meeting SCIF and high-security data center requirements

ISO 27001 & SOC 2

- Ensuring compliance with global information security frameworks

NFPA & UL Fire Safety Compliance

- Protecting assets while meeting regulatory standards

Honeywell ProWatch & Genetec Synergis

- Industry-leading security system certifications

With a proven track record of delivering scalable, compliant security solutions, Pavion is a preferred partner for data center leaders worldwide.

Current Partners & Customers

Pavion has a proven track record of securing high-profile data centers. We specialize in scaling security solutions across multiple locations, making Pavion the preferred security provider for the world's largest data centers.

Service Coverage & Ongoing Support

Pavion provides comprehensive, end-to-end security services tailored for data centers:

Global Deployment

- Covering 23 countries & 70+ U.S. locations

4-Hour On-Site Response Time

- Rapid service for mission-critical facilities

Predictable, Subscription-Based Security Plans

- Scalable solutions that grow with your business

24/7 AI-Powered Monitoring & Threat Detection

- Reducing downtime and mitigating risks in real-time

Our proactive maintenance strategies help reduce security gaps, lower costs, and improve compliance — giving you peace of mind that your facility remains secure 24/7.

Compliance & Reliability

Data centers require uncompromising security and reliability. Pavion ensures compliance with:

UL 2050-Certified

Security Solutions for high-security facilities

ISO 27001 & SOC 2 Compliance

for global data protection standards

NFPA & UL Fire Code

Adherence for mission-critical safety

AI-Enhanced 24/7 Threat Monitoring

to prevent breaches before they happen

Our solutions reduce vulnerabilities, mitigate risks, and ensure full compliance with industry and government regulations.

Technology That Works For You

Why Data Center Owners Choose Pavion Your Security, Our Expertise

Pavion is more than a security provider—we are your strategic partner in safeguarding mission-critical infrastructure. Our unique value proposition includes:

- **Industry-Leading Project Management** – Decades of experience with large-scale deployments
- **AI-Driven Security Innovation** – Advanced analytics for smarter, faster threat detection
- **Cost Efficiency & Risk Mitigation** – Minimizing change orders and reducing downtime
- **End-to-End Integration** – A seamless approach from planning to execution
- **Proven Success** – Trusted by the world's top data center operators

Partner with Pavion to Secure Your Data Center

When you choose Pavion, you gain a trusted security partner committed to protecting your assets, ensuring compliance, and enhancing operational efficiency.
