![Pavion — Connect and Protect]

Increase Security and Efficiency with Access Control

Challenge

In an era where security and efficiency are paramount, Pavion emerges as a trusted partner, offering cutting-edge access control solutions that redefine the way businesses safeguard their premises and manage their operations. Pavion's access control solutions help to strengthen the entrance and perimeter of your building. Our commitment to security offers businesses a holistic approach to safety and efficiency. Our comprehensive range of access control systems seamlessly integrates with other security solutions to provide holistic protection around the clock. By regulating who and when people can enter specific areas, our customers can feel secure in the privacy and safety of the company and its employees.

Solutions

Pavion's Access Control Solutions

At Pavion, we understand that security extends beyond the physical realm. Our access control solutions, available both on-premises and in the cloud, are designed to empower businesses with the tools they need to regulate access, strengthen perimeters, and enhance overall security. Whether you're a small enterprise securing three doors or a large corporation overseeing 300, Pavion has the perfect access control solution tailored to your specific needs.

Integration for Enhanced Security

Pavion recognizes that a holistic approach to security is essential. Therefore, our access control solutions can be seamlessly integrated with video surveillance, intrusion detection, visitor management, and badging systems. This integration acts as a force multiplier, ensuring that all aspects of your security infrastructure work in harmony to protect your business.

Partnerships for Robust Security

We collaborate with industry leaders like Brivo and Eagle Eye Networks to deliver top-tier security solutions. Brivo, a cloud-based access control and smart building technology provider, offers enterprise solutions that protect businesses worldwide. Eagle Eye Networks provides cyber-secure cloud-based video surveillance with AI and analytics, optimizing operations and security. Our strategic partnership with Brivo and Eagle Eye is instrumental in ensuring that Pavion's access control solutions are fortified with the latest advancements in cloud-based technology and cyber-secure video surveillance, ultimately delivering a comprehensive security ecosystem that sets a new standard in protection and peace of mind for businesses worldwide.

Managed Access Control Services

Pavion goes beyond providing access control systems; we offer managed access control services aimed at reducing cyber exposure and proactively managing physical security environments. Our proactive monitoring and maintenance protect both the access control system and the network from cyber threats, allowing businesses to focus on their core competencies. This comprehensive solution ensures the health and efficiency of your system through proactive management, updates, and problem-solving.

Pavion's access control solutions are at the forefront of redefining security and efficiency for businesses of all sizes. Whether on premises or in the cloud, our seamless access control solutions are designed to guard your people, property, and information against harm, empowering organizations to focus on their core operations. Our partnerships with industry leaders and our managed services ensure that your security remains proactive and robust around the clock.

If your business seeks to navigate the complex landscape of technology while focusing on its core operations, Pavion has the answer. Our scalable solutions are tailored to fit any company, ensuring that you are protected around the clock. With Pavion, you're not just investing in access control; you're investing in a business that specializes in Fire, Security, and Integration, offering peace of mind, efficiency, and a safer future for your business.

Benefits of Pavion's Access Control Systems

No More Lost Keys: Bid farewell to the age-old problem of lost keys. Our access control systems offer a keyless entry solution that provides convenience and enhanced security.

Secure Specific Areas: Control access to specific areas within your building, ensuring that sensitive locations remain off-limits to unauthorized individuals.

Track Who is Coming and Going: Knowing who enters your building at all times is paramount for maintaining a safe environment. Our systems enable you to keep a detailed record of entry and exit, providing transparency and accountability.

Multi-location Access: Seamlessly manage access control across multiple locations, streamlining security management for businesses with a geographical footprint.

No Undetected Strangers: With Pavion's access control in place, there are no more undetected strangers wandering within your premises. Only authorized personnel gain access, ensuring a secure environment.

Greater Data Security: By regulating access to specific areas and tracking entry and exit, Pavion's systems not only enhance physical security but also contribute to data security. Unauthorized access to sensitive areas where critical data resides is prevented, reducing the risk of data breaches and ensuring the confidentiality of your information.

PAVION EXPERIENCE

We've Got You Covered

We call it the Pavion Experience. The lifecycle of services we deliver, from design through ongoing support, that helps keep your fire, security, and integration systems running while saving you time and money.

Pavion brings best-in-class solutions together. Through the entire project lifecycle, we work with our customers to solve their problems and help them overcome their challenges. So no matter your project, we meet your needs with a partner you can trust.

Design

From the initial project kickoff to understanding your requirements, we'll design a solution that meets your needs with clear scope, bill of materials and comprehensive drawings.

Technology & Integration

Once your design is approved, we deliver your technology with first-class implementation, engineering, change management and training.

Service

With your solution fully implemented, Pavion offers multiple service offerings to make sure you get the most out of your Pavion Experience, with the highest level of reliability and customer service offered.
